

Profile

A full-stack web developer who values professional standards, clean code, cross-cultural competence, remote work readiness, and pair programming. Equipped with the capacity to learn quickly and adjust to any situation and a growth mindset to overcome challenges. I am currently enrolled in Microverse, a remote software development program that teaches development using pair programming and real-world projects. Additionally, I participated in the ICPC Programming Contest, and I am proud that my team and I achieved the fourth position out of 47 teams.

Experience

Mentor at Microverse (Volunteer)

Apr 2022 – Jan 2023

- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

Full Stack Web Developer (Self Employed)

2021 – Present

Mastered intermediate and advanced topics in full-stack development (including Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

Second Hand Bookstore — This project was mainly created for students to sell the books they have read. Users can create a profile, search for their books, add them to wishlists, and upload them for sale.

- Built with: HTML, CSS, Bootstrap, MySQL, Python (Django)
- Find the [source code here](#) and the [live demo here](#).

Todo List — This project is a list of to-do tasks. Users can add tasks, mark them as completed when they're finished, and then remove or edit them.

- Built with: HTML, CSS, JavaScript, React
- Find the [source code here](#) and the [live demo here](#)

Education

Remote Full Stack Web Development Program, at Microverse

Present

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Bachelor of Computer Science at Kateb University

2018 – 2022

- A study on the design, development, and analysis of software and hardware used to solve problems in a variety of business, scientific, and social contexts.

Extra-Curricular Activities

Achieved the Forth position in International Collegiate Programming Contest (ICPC)

2022

Core Team Member of Google Developer Student Club (GDSC) at Kateb University

2020 – 2021

Co-Organizer of International Collegiate Programming Contest (ICPC)

2019 – 2021

Peace Activist and Cultural event organizer in Afghan Peace Volunteers and MasterPeace Afghanistan Organzitions

2017- 2019
